1    --> Comment Text :  
[ I believe the Yucca Mountain Project is a necessary evil. I also believe this project should proceed. I believe that fossil fuel will be eventually depleted, and that energy demands will increase unless we revert to third world conditions. Thus, nuclear fuel is one of the prime sources for energy. Nuclear waste is the evil that must be resolved, and this Yucca Mountain Project goes a long way toward a lasting resolution. This site in Nevada is an excellent choice. It is difficult to imagine what will be the conditions in 10000 years of advancing technology.]

2    [ I also wonder how I got on your mailing list.]
